BED ASSEMBLY

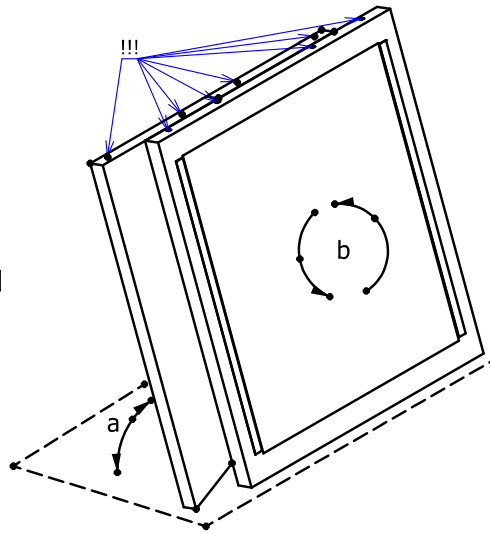

MODULAR

1. Affix the twin bed frames together utilizing the intermediary legs provided.

3. Maintain the covered frame on its side and proceed to attach the lateral legs. Upon completion, you may rest the frame on the floor with assurance.

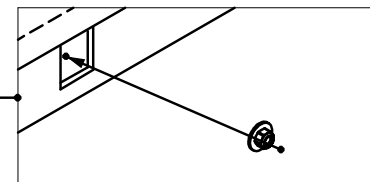

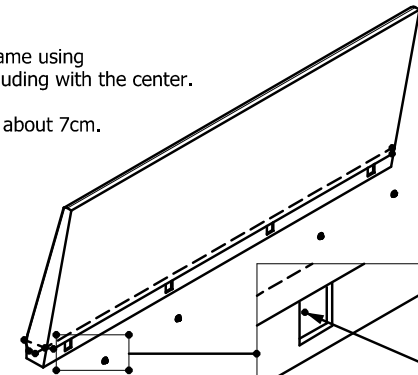

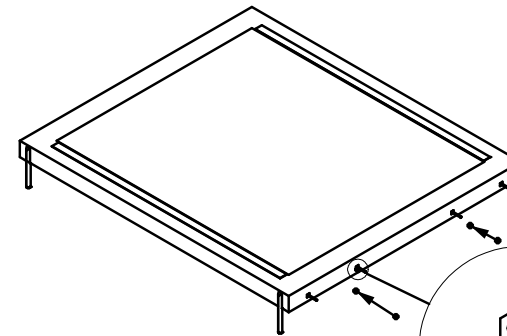

2. Gently elevate one side of the frame and drape the assembled frames with the provided fabric cover. Should there be a necessity, rotate the frame and methodically cover each edge, progressing from one corner to another until all corners are properly aligned.

Note: Observe the perforations in the fabric which denote the rear of the frame. The facade of the bed frame is indicated by the absence of holes.

4. Unveil the fabric at the rear and prop it up to reveal the incisions on the backside of the headboard.

Subsequently, secure the headboard to the frame using the fasteners, initiating from the sides and concluding with the center.

!!! - Make sure that rod is inserted in bed frame about 7cm.

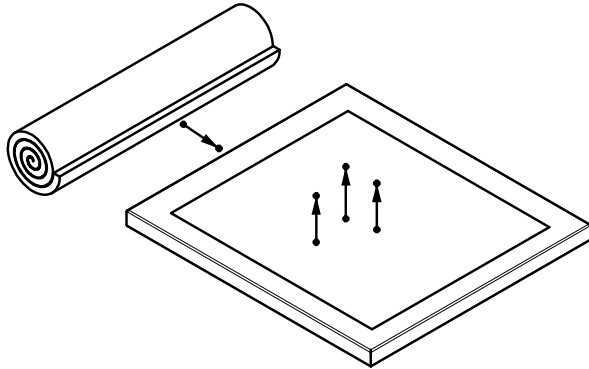

IMPORTANT

At least two people are necessary to assemble the bed, do not lift or push it alone.
The bed has to be placed on a flat and leveled surface.

BED ASSEMBLY

MODULAR

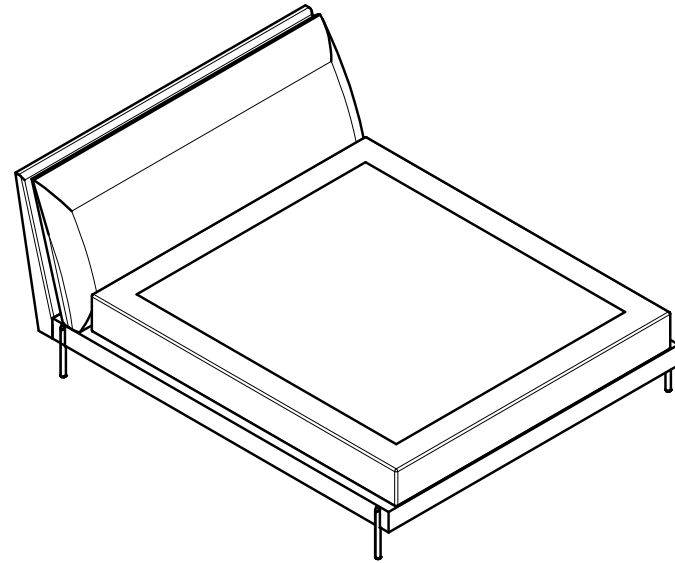

5. With utmost care, unwrap the mattress package and envelop it with the supplementary fabric tailored for your mattress. Allow it to settle for the recommended duration of 72 hours.

If necessary, make adjustments to the fabric to ensure the covered mattress presents a flawless appearance.

6. In the process of positioning the mattress on the bed, ensure the alignment of the Velcro strips. Subsequently, remove the protective cover from each Velcro strip and meticulously affix your mattress to the bed.

7. To finalize, position your pillow between the headboard and the mattress. Take a moment to appreciate the comfort it provides, and rest assured that you've completed the assembly. Sweet dreams!
